## AMUSEMENTS

SEE "OH, YOU WOMEN," AT THE BUTLER TODAY.

It may have been fine for the women of the country to take the positions held by the men while they served in the great war and helped make the world safe to live in, but it is all wrong for them to keep these positions when their heroes come back home. So firmly did they believe in those principles that they made a photoplay based on that theme, which has been released by the Famous Players-Lasky corporation as one of their special Paramount-Artcraft productions, under the title of "Oh, You Women," which will be shown at the Butler today.

Ernest Truex, the celebrated comedian, and Louise Huff are the principals of the cast. The picture was produced by John Emerson and Anita Loos and it has been done with every touch of comedy and satire that the people know Mr. Emerson and Miss Loos are most capable of supplying. They have evolved a wonderful story which has much comedy action, heart interest and suspense, that sends one away from the theatre with smiles upon their faces, and the picture has been commented upon in a most flattering manner from all quarters.

Added to the feature will be a Bray Cartoon comedy. Tomorrow, Viola Dana, in one of the best comedy dramas that has been placed upon the screen in many a day, entitled, "Some Bride," together with a two-reel Mack Sennett comedy, "The Little Widow." Coming Monday, a special attraction, "Oh, Boy," and you want to see it.

WILLIAM McKNIGHT, who is associated with William Forman in his law office, has bought the former Tregloan house from Lowell Street and is firmly established in Tonopah.

R. L. JOHNS, president of the Arrowhead Mining company, and A. H. Elftman, consulting engineer, returned from the camp last evening.

## ARIZONA AFTER RAILROAD VENT TO THE GULF

(By Associated Press)

TUCSON, Ariz., Dec. 5.—Construction of two railroads, one to an outlet on the gulf of California, is looked upon by leading citizens and observers generally as having an important bearing upon future development in the southwest.

The road to tidewater is expected to be constructed from Ajo, Pima county, Arizona, to San Jorge bay, Sonora, Mexico, a distance of about ninety miles. Although but little public mention has been made concerning the present project, it is declared that Col. John C. Greenway, general of the two large mining companies before he went to war against Germany, has practically completed final arrangements in the east for financing the project.

Under commissions granted by the Mexican government for the right of way over the fifty miles of the road which would be constructed in Sonora, it is said that ample time remains for the building of the line.

Col. Greenway, when opening up a copper deposit at Ajo, had a railroad built from Gila, on the Southern Pacific, to Ajo, a distance of about sixty miles and in a southerly direction. What remains is the extension of the road through to the gulf.

When the road reaches San Jorge bay a 55-year-old dream of Arizonians will be realized. The railroad is looked to for furnishing an ocean outlet for copper matte shipments to eastern refineries, by way of the Pacific ocean and the Panama canal. Arizona ranks as the foremost copper producing state. Of secondary importance would be the outlet for cotton and other agricultural products.

A tentative route for the railroad runs slightly west of south to Quitova, just north of the international boundary, thence down the valley east of Pinalcote peak in Mexico and then turns westward toward San Jorge bay. Men of the Tucson, Cornelia and Gila Bend railroad, which is the name of Col. Greenway's line from Gila to Ajo, have been working on surveys for time road into Mexico.

The other railroad, construction of which is planned, is the Verde Valley.

## COMISFORD TAKEN TO CARSON.

Charles Comisford was taken to Carson City last evening by Sheriff Jack Barrier to begin serving his term for the killing of Riley.

A thin girl never wishes to be fat but she always wishes she had some of the fat girl's flesh in certain places.

My railroad, fathered by James S. Douglas, of Douglas, Ariz., and important mining interests. Surveys contemplate construction from Jerome, Yavapai county, southeast through the fertile Verde valley and thence nearly south into the Salt River valley, connecting with the Arizona Eastern railroad at Mesa. The road would be about 100 miles long and would open up a mining, cattle and agricultural country now deprived of rail transportation.
